Dear Stella

Challenge Fund Grant Application

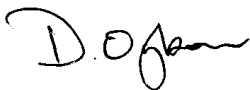

Wessex Water is pleased to support South Gloucestershire Council with an application for Challenge Funding and the associated schemes to reduce flood risk at the promoted locations. We can endorse these schemes at locations in areas of known flood risk and in particular we can foresee benefits at Thornbury and Rangeworthy to overcome development constraints to allocated sites.

We have confirmed renovation schemes to public foul systems at Rangeworthy and it should be noted that there are developer led requisition schemes at Thornbury.

Subject to a successful outcome from the Challenge Bid there may be further opportunities to collaborate upon schemes to resolve flood risk from surface water run-off.

If any further assistance is required in this matter please let me know.

Yours sincerely,

Dave Ogborne
