Gas Alliance will provide the immediate, mid and long term Biomethane requirement for First Bristol from either of the above sources, or any new sources which become available at the time of supply.

Our current portfolio ensures a guaranteed supply for the planned First Bristol Biomethane Fleet and the total First Bristol Fleet should the demand occur.

All of Gas Alliance Biomethane is certified. The Certificates will be produced and supplied to First Bristol on an annual basis.

A handwritten signature in black ink, appearing to read "Tony Griffiths".
