

Write an article for the school newsletter or website

Your Task:

Write an article for the school newsletter or website encouraging staff and students to walk or cycle to school.

Things that you might want to include:

- An introduction to tell the reader what your article is about.
- The benefits of walking or cycling to school? Do you have any facts to add?
- A personal story from someone in your group. Does anyone particularly enjoy walking or cycling to school? Why do they enjoy it?
- A quote from a member of your group. For example Sarah in class 7R said ' I really enjoy walking to school because.....'

Make sure the quote is relevant to the rest of the article and supports what you have already written.

- Are there any other points you could include to persuade people to cycle or walk?
- A conclusion to summarise the main points of your article
